

Care instructions for:

18 x European Mini-Bouquets

Grooming:

- Gently remove the 18 Mini-Bouquets from their shipping box.
- Make a clean cut at a 45-degree angle about 1 inch off the end of each stem with a sharp knife or clippers to make sure that the stem is not injured. Do not use scissors.
- Add flower food to water and place bouquets in vase of your choice.
- Replace the water, and re-cut the stems every 2-3 days for extended vase life.

Enjoy your flowers!
